To: masters-advisory-committee@cs.cmu.edu

One other note:
None of the content after 2.2 (page 15 onward) are items that I have shared with the committee before. In retrospect, 2.4 is clearly something the committee should have been CCed on, but I neglected to do that then and forgot to correct it until recently. In any case, that content and other, newer items are bundled and now accessible.
